

Paint This House

Brandy

I aint even close to leaving this house
Theres still so many rooms left to cover
And there aint no reason for you to ever be without
Memories of me and my love And I want these stairs, those walls
kitchen counters, and those chairs
To remind you of how good it feels
And all of these floors and ceilings
and every hallway (yeah)
Not and inch will go untouched Lets paint this house with our love (our love) Ill just lay while you stroke, you
putting it down
Damn you showing all your colors
The wildest thoughts are provoking
Its like youre in my head right now (now, my head)
Cause you know me like no other And I want these stairs, those walls
kitchen counters, and those chairs
To remind you of how good it feels
And all of these floors and ceilings
and every hallway (yeah)
Not and inch will go untouched Lets paint this house with our love (our love) Our love
Love oh oh
Ooh ooh
Cancel the decorator
We dont need no help
Youll pick out the colors
Well clean up the mess later
We do it so well
Loving one another
In the closet
On the Facets
In the balconies
Anywhere you are inside this house
Youll, think of me yeah yeah yeah And I want these stairs (stairs), those walls
kitchen counters, and those chairs (those chairs)
To remind you of how good it feels (good it feels)
And all of these floors and ceilings (floors and ceilings)
and every hallway (yeah yeah yeah)
Not and inch will go untouched Lets paint this house with our love (our love)
Our Love (our love)
Lets Paint this house with our love (love)

Lets paint this house with our love (our love)
