## **Paint This House**

## **Brandy**

I aint even close to leaving this house

Theres still so many rooms left to cover

And there aint no reason for you to ever be without

Memories of me and my loveAnd I want these stairs, those walls

kitchen counters, and those chairs

To remind you of how good it feels

And all of these floors and ceilings

and every hallway (yeah)

Not and inch will go untouchedLets paint this house with our love (our love)Ill just lay while you stroke, you

putting it down

Damn you showing all your colors

The wildest thoughts are provoking

Its like youre in my head right now (now, my head)

Cause you know me like no otherAnd I want these stairs, those walls

kitchen counters, and those chairs

To remind you of how good it feels

And all of these floors and ceilings

and every hallway (yeah)

Not and inch will go untouchedLets paint this house with our love (our love)Our love

Love oh oh

Ooh ooh

Cancel the decorator

We dont need no help

Youll pick out the colors

Well clean up the mess later

We do it so well

Loving one another

In the closet

On the Facets

In the balconies

Anywhere you are inside this house

Youll, think of me yeah yeah And I want these stairs (stairs), those walls

kitchen counters, and those chairs (those chairs)

To remind you of how good it feels (good it feels)

And all of these floors and ceilings (floors and ceilings)

and every hallway (yeah yeah yeah)

Not and inch will go untouchedLets paint this house with our love (our love)

Our Love (our love)

Lets Paint this house with our love (love)

Lets paint this house with our love (our love)
