

Runnin' Away

Eddie Money

Late at night and I still can't sleep
My body's tired, but my thoughts are runnin' deep
I guess I know just what you're going through
Because I kinda feel the same way, too
Looking back, there's nothing that we could do
It's not easy what you're going through
You call me up, and I'm still wondering what to do
We both admit that it's gone too far
We're just trying to find out who we are
Lonely nights are something that I don't want to see
Now you're free and living fast
It's not easy looking at the past
It gets harder every day
When you're runnin' away
Runnin' away, oh no
Looking back, we shared a lot
Is it worth it all to let go of what we got?
All at once you can't ignore the fact
Somewhere, somehow we got off the track
Give it up, it's changing you and changing me
Runnin' and runnin'
If we had the chance to turn the clock back
Who knows how or when
Would it happen all again?
Now you're free and living fast
It's so tough to make a good thing last
It gets harder every day
When your runnin' away
It's not easy living on your own
You miss your friends, you wanna go back home
It gets harder every day
When you're runnin' away
Runnin' away, oh no
Runnin' and runnin'
Runnin' away
Runnin' free, and you're runnin' too fast
It just can't last
Runnin' and runnin'
