

# Crosswinds

## Holy Grail

Chaos and constancy forever intertwined  
Peace and adversity at war within the mind  
Locked in a struggle, an illusion trapped in time  
When worlds collide just enjoy the ride

Determination is just the beginning so there're no reason to stall  
Your destination is on the horizon, it's time to answer the call  
No consolation, it's all about winning, we gotta fight and stand tall

All systems are overloaded!  
All weapons are locked & loaded!

Fight that feelin'  
Before it pulls you under  
Has you reelin'  
Already full of wonder

Twistin', turnin'. whirlin'  
Caught in the crosswinds... and left behind

No indication of end or beginning, there's no perception of right or wrong  
A conflagration will end all your sinning, into the fire you'll fall

All systems are overloaded!  
All weapons are locked & loaded!

Fight that feelin'  
Before it pulls you under  
Has you reelin'  
Already full of wonder

Twistin', turnin'. whirlin'  
Caught in the crosswinds... and left behind

Fight that feelin'  
Has you reelin'  
  
All systems overloaded!  
All weapons locked & loaded!  
All systems overloaded

Caught in the crosswinds!
