Good Intentions

Robert Ellis

I don't care how wrong it is
I've got your intentions
And I just can't hide it anymore
I made my decisionYou pulled that collar round my neck
And you bring me to your whisper
You say the thing I wanna hear
Don't do this to me sister
Don't do this to me sister
Don't do this to me sisterI don't care how wrong it is
I've got your intentions
And I just can't hide it anymore
I made my decisionYou put your hands on my chest
And your eyes are filled with laughter
Your lips are wet ,your hair's a mess
And I know just what you're after
I know just what you're afterI don't care how wrong it is
I've got your intentions
And I just can't hide it anymore
I made my decisionI don't care how wrong it is
I've got your intentions
And I just can't hide it anymore
I made my decision
I made my decision
Yes, I made my decision
