

# Scared Of Yourself

Zornik

You reach for pain  
You reach for fear  
You reach for everything  
But nothing ever comes your way And I'm not lying  
You always complain about the way I behave without you And last night I had a dream  
About it  
And it's very hard to stay faithful  
To a dream of you CHORUS:  
Think about the lies  
That we told to each other  
We never bothered  
What a big surprise  
That your scared of yourself  
And alone all again You reach for me  
You reach for us  
You reach for everything  
But nothing ever comes my way But you  
You are nothing but a state of mind  
From the start until the end CHORUS x 2
