

# Friendship Is Rare

## Bobby Meader Music

If you love something you make it stay  
And if you love someone you say sorry at the door  
Sometimes you just don't care enough to fight even if you know you're right  
Because the effort we put in is always good enough Cause I've pulled my best friends out of fights  
A handful of times we all didn't stay the night  
Here is a rational - best friends die old together  
We know it takes twice as long to correct one single wrong I know friendship is rare Ryan tells me so  
And the loves I leave there no sorry for being me  
And the girls make sure to remember every anniversary  
I'm just happy enough they listen to my shitty stories I love waking up to coffee  
Listening to records till our ears bleed  
We are the perfect match in a house that won't collapse  
Because the day we break up someone had kids
