

# What Are We Doing

## Omarion

You know sometimes you get in situations  
And when you make that move  
You gotta be committed  
She know what I mean We were better off friends  
But the magic of the night had us holding each other tight  
We should've kept it right there  
But the movie got boring and you wore those jeans I like I glanced at your pretty feet  
Your sexy hands rubbing on my chest  
Should I kiss you? I heard a voice say yes  
Next, we were undressing not realizing  
We shouldn't be doing this, no What are we doing  
What have we done, what have we ruined?  
How did this happen  
Were we just blacked out, what are we doing? What are we doing  
What have we done? Baby, I'm tripping  
'Cause after we cut all the feeling was gone  
Girl, what did we do? They say some things are better off as just a fantasy  
What came over me?  
I did not lose control, it must've been those jeans  
It was the way she fit in those jeans I can't even remember if it was good or not  
All I know is that our temperature was boiling hot  
Can't believe I just made love to my dear friend  
I pray that this isn't damaging in the end Lack of communication  
Got us both in the situation  
Now there's no way out, no way out  
'Cause we can't turn back time, no What are we doing  
What have we done, what have we ruined?  
How did this happen  
Were we just blacked out, what are we doing? What are we doing  
What have we done? Baby, I'm tripping  
'Cause after we cut all the feeling was gone  
Girl, what did we do? We're staring at the ceiling  
With the cover tuck pulled up to our necks  
Like o  
Should've never let you come here alone, no, no, no I know I just enjoy seeing you naked  
Now I can't look, now I can't look  
We did this, it's a price we have to pay  
Now there's nothing to say She was a friend of mine fine, slim waistline  
I never thought she'd be feeling me, never seen the sign

My homie said I'll eventually hit it a while back  
I told him na, she friend, it ain't like that I found myself staring at that ass a couple times  
Threw without a sight in mind, knowing her since I was nine  
But a moment alone in a soft bed changed everything  
Never thought that we go to this extreme Lack of communication  
Got us both in the situation  
Now there's no way out, no way out  
We can't turn back time, no What are we doing  
What have we done, what have we ruined?  
How did this happen  
Were we just blacked out, what are we doing? What are we doing  
What have we done? Baby, I'm tripping  
'Cause after we cut all the feeling was gone  
Girl, what did we do? What are we doing  
What have we done, what have we ruined?  
How did this happen  
Were we just blacked out, what are we doing? Are we doing  
What have we done? Baby, I'm tripping  
'Cause after we cut all the feeling was gone  
Girl, what did we do?
