

Ponytail

Panda Bear

When my soul starts growing
When my soul starts growing
When my soul starts growing
I get so hungry and I wish it never
Never would, never would
Never would
Never would stop growing
When my soul starts growing
When my soul starts growing
When my soul starts growing
I get so full and I wish it never
Never would, never would
Never would
Never would stop growing
When my soul starts growing
When my soul starts growing
When my soul starts growing
I am as I want to be and I know I never
Never will, never will
Never will stop caring
