Hand In Hand

Sever Your Ties

We walk side by side with an angel
And I hold hands with the devil
And everything feels the same
It always feels the sameNothing ever changes
I cant see myself changing
But it just doesnt matterIts okay 'cause we are the same
No one greater than the otherMaybe he is the handsome devil
And maybe she is an Angel
But it just doesnt matterIts okay 'cause we are the same
No one greater than the other
No one greater than the otherWe fall and well sing it for the last time
We fallIts okay 'cause we are the same
No one greater than the other
