Dead Seeds

Seether

Now I'll take the blame
So forget my name
Just close the blinds so I can come down
I'm naked and shamed
A moth to the flame
Just take my hand so we can both drown

[Chorus]
I'll never believe in you again
I'll never forgive those things you said
My only release is gone and dead
I'll never forsake myself again.

The same sweet game
Your halo is aflame
Feel my heart race
and breathe a sad sigh
Let me wash away
And let go of the pain
Just look away
And turn a blind eye

[Chorus x2]

So hold me down
If I feed I'm stronger
I don't feel no longer
So hold me down
If I feed I'm stronger
I don't feel no longer
So hold me down
If I feed I'm stronger
I don't feel no longer

[Chorus x3]
