## Finch

Below the earth lies a serpent  
Fire and brimstone  
Remove the backbone  
Say hello to sunshine  
Wake up, you're baptizedThe temple is me  
Something to believe in  
Is something to be  
The evidence is all we tasteUnder the skin the heart is pumping  
What brought you to this?  
Meat once was useless  
Focus on the fiction  
Lose sight of the visionThe temple is me  
Something to believe in  
Is something to be  
The evidence is all we tasteMan makes changes  
Man wants everything  
Man makes changes  
Man wants everythingEverything, everything
