# 10,000 Children

## Dave Barnes

10,000 children and all I can do is just talk
While my house is full of possessions that negligence bought
Everyone tells me that I'm not to blame
Why do I still feel the same?Only love can save us all
Only love can save us all, save us all10,000 children are my invitation to change
To continue in excess now suddenly feels, oh, so strange
Prayers and money should not be confused
But I pray that both still are usedOnly love can save us all
Only love can save us allWhat will become of me?
Inside of history10,000 children and all I can do is just talk
