

# Not Today

Tori

Verse 1:

Those ticking clocks gave us away  
Don't be ashamed, wear it  
Let's take a walk down memory lane  
There's moments I cherished  
We were just fine  
But not this time  
Pre:  
Don't know how to say this to you  
I wish I could make it ok  
But I need to dream alone  
Try to breathe on my own  
Maybe over time I'll come back to you  
But not today

Chorus:

Ooo ooo ooo

Not today

Verse 2:

My love for you was always true  
I can never deny it  
I could live a lie  
But deep inside I'd know that I'm dying  
We had our time  
Now I need mine  
PreChorusBridge:  
Nothing's forgotten  
No words are lost  
I'll keep the memories inside my heart  
And maybe over time  
I'll come back to you  
Back to you  
But not today
