

# night fall

**Justin Tyler**

Your love is killing me, it draws me to the dark  
Your veil of ecstasy that leaves the telling mark  
The spell you cast inside is stabbing through my heart  
It reaches deep within, it's pulling me apart  
Night fall, you take my soul  
Night fall, you're in control  
Your love's still haunting me, it draws me into black  
Your veil of fantasy won't let my soul come back  
The spell has taken all I can't release my mind  
I've lost my heart to you, you're too cruel to be kind  
Night fall, you take my soul  
Night fall, you're in control  
Night fall, I called you and you came  
Night fall, I'll never be the same  
Night fall, you take my soul  
Night fall, you're in control  
Night fall, I called you and you came  
Night fall, I'll never be the same
