Another Universe

Satan

As flames devour this forest, all around as far as they eye can see
Perfect devastation, a life free zone for evermore it would seem
As seasons fly, a seed may bloom against the odds
Maybe so, in another life, another uni maybe
But nothing grows, nothing grows hereAs flames devour this forest, all around as far as they eye can see
Perfect devastation, a life free zone for evermore it would seemNo more to live no more to endure, no more to give
I'll meet you in another life
No more to breathe, no more to feel, no more to speak
I'll meet you in another life
Another life, another uni
Another life, another uniA pyroclastic cloud tears the life from everything in it's path
Blackens out of the sun, and in it's wake leaves only ash
No more to live no more to endure, no more to give
I'll meet you in another life
No more to breathe, no more to feel, no more to speak
I'll meet you in another lifeAnother life, another uni
Another life, another uni
