

Thing For You

Hinder

Now that it's morning,
Where do you want to go from here?
Well now that we're sober,
Do you think of me more clear?
Whoa now, now that your head is right,
Did you dig last night?
It keeps playing in my mind.Cause girl I gotta thing for you.
And I know it's kinda crazy,
Cause I know that you have someone else,
Wondering where you were last night.But oh yeah now, don't think we're through,
I gotta thing for youWell now that you're home,
Will he be the first thing that you see?
I know you compare us,
How does he match up next to me?No, now, now that your head is right,
Did you dig last night?
It keeps playing in my mind.Cause girl I gotta thing for you.
And I know it's kinda crazy,
Cause I know that you have someone else,
Wondering where you were last night.And I know the night was hazy,
But I still remember waking up and kissing your head one more time,
But oh yeah now, don't think we're through,
I gotta thing for youWell I remember laying your head down,
I remember loving our love sounds.I gotta thing for you.
An I know the night is crazy,
But I still remember waking up and kissing your head one more time,
I gotta thing for you.
An I know the night was hazy,
But I still remember waking up,
An kissing your head one more time.
Ooh yeah now, don't think we're through,
I gotta thing for you...
