

# I've Been Loving You

Sandra NkakÃ©

I didn't mean to hurt you  
You know, it's just my way  
Those things that I said yesterday  
Were things I shouldn't sayAlthough you're blue  
Just one thing I want you to do  
Just forget all those things  
That I said about you'Cause I've been loving you baby  
Loving you baby for a long time  
And if you go away  
I just won't know what to doYes, I've been loving you baby  
Loving you baby for a long time  
And you know in your heart  
That I'll always worship youI couldn't bear to see you go  
Oh, no, no, no, noSo don't you feel sad  
It's not the thing to do  
Because I worry  
If I know you're feeling bluePlease, put your tears away  
So nobody can see  
'Cause the last thing I want  
Is for you to cry over me'Cause I've been loving you baby  
Loving you baby for a long time  
And if you go away  
I just won't know what to doYes, I've been loving you baby  
Loving you baby for a long time  
And you know in your heart  
That I'll always worship you'Cause I've been lovin' you baby  
Lovin' you baby for a long time  
And if you go away  
I just won't know what to do
