Warm

Avia

Warm my lips against your lips
And warm my finger tips
By giving me your handSo warm to have you close to me
And hold you tenderly
I never felt so burnedAll of my life I walked in the cold
Till I found your warm arms
For having to holdSo please don't ever let me go
For I could never know
A love that is so warmSo warm to have you close to me
And hold you tenderly
I never felt so burnedAll of my life I walked in the cold
Till I found your warm arms
For having to holdSo please don't ever let me go
For I could never know
A love that is so warm
