

# Dust in a Baggie

## Billy Strings

Dust in a Baggie

[Verse 1]

I ain't slept in seven days, haven't ate in three  
Methamphetamine has got a damn good hold of me  
My tweaker friends have got me to the point of no return  
I just took the lighter to the bulb and watched it burn

[Chorus]

This life of sin has got me in  
Well it's got me back in prison once again  
I used my only phone call to contact my daddy  
I got twenty long years for some dust in a baggie

[Verse 2]

Well if I would have listened to what Mom and Papa said  
I wouldn't be locked up in prison, troubled in the head  
I took that little pop and sucked until my mind was spun  
I got twenty years to sit and think of what I've done

[Chorus]

This life of sin has got me in  
Well it's got me back in prison once again  
I used my only phone call to contact my daddy  
I got twenty long years for some dust in a baggie

[Verse 3]

Sometimes I sit and wonder where my little life went wrong  
These old jailhouse blues have got me singing this old song  
My life is a disaster, Lord and I feel so ashamed  
In here where they call by a number, not a name

[Chorus]

This life of sin has got me in  
Well it's got me back in prison once again  
I used my only phone call to contact my daddy  
I got twenty long years for some dust in a baggie  
I used my only phone call to contact my daddy  
I got twenty long years for some dust in a baggie
