## The Tallest Man On Earth

Well there were days when you thought you would just go under  
And though weakens that you never understood  
When you flew from the bar only 17  
You didn't bleed and no one ever thought you would  
And there were straits and lines and every sort of option  
To stay away from broken mirrors in your friends  
But the summer was stung with some mighty thread  
You know I will never wait around no bed  
Come see the happening rain  
Come see the stainless and all that wants  
Come see the loveable strain  
Of someone diving before all you know  
Come see the strain of the real and trial  
Come meet the criminals of this Napoleon riot  
And there were nights when we thought we would just surrender  
To the stories of the miracles of Gauls

When you flew from your sheets when your hours are gone  
Never sleep and no one ever thought you would  
Come see the happening rain  
Come see the stainless and all that wants  
Come see the loveable strain  
Of someone diving before all you know  
Come see the strain of the real and trial  
Come meet the criminals of this Napoleon riot  
And there are illusions and then just not even wants 'em  
To walk around a shiny peak of snow  
And what a picture that is to be safer  
Now we stand like its just for us to know  
There was a time in my life when I was carried by all of you  
Now I run like a mist 'till don't know what I dive in to  
Come see the strain of the real and trial  
Come meet the criminals of this Napoleon riot
