I'm Not Afraid

Karen Akers

Watch your back because I am coming closer
Shivers down your spine, you were not expecting me
How does it feel to be faced in your territory?
Are you afraid to see me here?
I'm not afraid, to take my time
To live my life the way I want to
I'm not afraid to take you down
And live my life as I want to
I'm not afraid
Closer but apart, no one else can hear us
Get out of that car, did you wanna leave without me?
How does it feel to be faced in your territory?
Are you surprised to see me here?
I'm not afraid, to take my time

To live my life the way I want to
I'm not afraid to take you down
And live my life as I want to
I'm not afraid
I'm not afraid, to take my time
To live my life, the way I want to
I'm not afraid to take you down
And live my life as I want to
I'm not afraid to take my time
To live my life, the way I want to
I'm not afraid to take you down
And live my life as I want to
I'm not afraid
