War

The Cardigans

Oh, come crush me now
Don't leave
No one has won this war this time
No don't sleep tonight
I'm burnt and ready for fire
Don't leave me up alarmed
And ready to die
Come on, it's war, come on
Come on, come on, come on
Come on it's war, come on
Please, I'm almost done
Don't retreat
I've loaded my gun with blood
Here, the dust roll over the floor
Why must you sleep
Come crush me now, unarmed
And ready to die
Come on, it's war, come on
Come on, come on, come on
Come on it's war, come on (come crush me now)
Come on, fight me, come on
Come on, it's war, come on
You look so peaceful when you sleep
Beautiful creep
It's such an easy way to choose, you lose
It's getting late
Come on, it's war, come on (come crush me now)
Come on, come on, come on
Come on, fight me, come on
Come on, come on, come on
Come on, it's war, come on (come crush me now)
Come on, come on, come on
Come on, it's war, come on
You look so peaceful when you sleep
Beautiful creep
It's such an easy way to choose, you lose
