

Haffi Fall Down

Orange Grove

The man on top there, him haffi fall down
For how him got there, him haffi fall down
Him nah wan stop there, him want it all now
But sooner or later even body-guardsâ€™ll let their guards down
The man on top there, him haffi fall down
For how him got there, him haffi fall down
Him nah wan stop there, him want it all now
But sooner or later even body-guardsâ€™ll let their guards down

No need to worry man youâ€™ll always get by
Itâ€™s just your people on the streets whoâ€™ll have to suffer yeah
You never go hungry and you sleep well every night
Itâ€™s just your people who canâ€™t afford a supper
And thereâ€™s one reserved for your head
One to bore through your brain til ya dead, so you donâ€™t wake up tomorrow to cause more pain and suffering to
spread
The last gift youâ€™ll getâ€™s made of led and it goin fly out a barrel

The man on top there, him haffi fall down
For how him got there, him haffi fall down
Him nah wan stop there, him want it all now
But sooner or later even body-guards
Theyâ€™ll run away, theyâ€™ll run away, theyâ€™ll run away, theyâ€™ll run away

Youâ€™re only in it for your best interest
Pretending that you care when really you couldnâ€™t care less
Youâ€™re spreading sufferation from behind a desk, and one thing is for sure these people canâ€™t go take no more
And thereâ€™s one reserved for your head
One to bore through your brain til ya dead, so you donâ€™t wake up tomorrow to cause more pain and suffering to
spread
The last gift youâ€™ll getâ€™s made of led and it goin fly out a barrel

The man on top there, him haffi fall down
For how him got there, him haffi fall down
Him nah wan stop there, him want it all now
But sooner or later even body-guards
Theyâ€™ll run away, theyâ€™ll run away, theyâ€™ll run away, theyâ€™ll run away

Embrace the taste youâ€™re in the place to be. Theyâ€™re gonna turn it to waste you just wait and see. The same thing
you take oh so sacredly to them are worth just as much as dust. You canâ€™t tell me that bombing is the right

solution. Thatâ€™s like trying to save our ozone by causing more pollution, like using gasoline to try and out a fire, thatâ€™s like trying to fix a flat by flattening another tire. It sounds silly I know but yâ€™all look silly to me, like a bunch of little kids acting ridiculously. Do something about your 40 million illiterate and I mean that literally you got more problems in Little Italy, Sadam was just Little League

The man on top there, him haffi fall down
For how him got there, him haffi fall down
Him nah wan stop there, him want it all now
But sooner or later even body-guardsâ€™ll let their guards down
The man on top there, him haffi fall down
For how him got there, him haffi fall down
Him nah wan stop there, him want it all now
But sooner or later even body-guards
Theyâ€™ll run away, theyâ€™ll run away, theyâ€™ll run away, theyâ€™ll run away
Theyâ€™ll run away, theyâ€™ll run away, theyâ€™ll run away, theyâ€™ll run away
