Blood

[Abandoned Pools](#)

I see the happy family tree
It sways so easily
We're smiling all the time
This world just isn't mineWe watch it burn and we never learn
This can't be what you're waiting for
Staring into the sun, we eat our young
This can't be what you're waiting forJust take it easy on yourself
Forget all the stupid things we say
I know you beat up on yourself
I know, I know it's in your bloodYou say what no one understands
The seeds are in your hands
The branches break your bones
I can't just leave you alone and watch you squirm
