

Milky Fly

Haymaker

Went on down to see "milky fly" and "spider web"
Someone asked who's "Jamie's Brother"
and why's he charging ten bucks for a head? - baby, I don't know

Ran smack into Seymore Chicken
he said, "I've been stuck here in the back
cruising on a Lazy Plane in a jacked up cadillac"

I said "c'mon man lets go"

Tribal Isris she's been putting on lipstick in the mirror
Saturation dropped on in and sat right down and got a beer - baby yes he did
he said his car broke down at mile 111, the tire went flat
he knew he was riding on a may-pop
without a jack

I said "c'mon man lets go"

Ah yeah just a trip through the mind in time
from mine to yours and yours to mine.

A passenger old Diamond Jim
a pirate from the days of XKK
flagged down Mr. Pig's Paint Truck
pure happiness - baby yes it was
he said, "slide on over man let me tell you the meaning of success"
A shot of 7 cuts you like a chainsaw
what a mess

I said "c'mon man lets go"
