At the Moment

Stavesacre

With a sigh I greet the day feel the morning on my face
Weary at the moment I awake
Even as I lie the thought returns to mind
'Welcome to the rest of your life'Somewhere I've lost my way from saved to stray and failing
In silence my spirit pleads
Is the vision lost or has it been passed on?
Is there any use continuing?My soul will wait
My soul wait silently for God, my God
And I will live
I know some destiny still waits for meFaithfulness, my hope brings comfort to my soul
With a still small voice whispering
Call upon My name and I will set you up on high
Be still and know that I am GodMy soul will wait
My soul wait silently for God, my God
And I will live
I know some destiny still waits for meCreation speaks to me I'm stricken to my knees
In reverence and fear forever my Almighty
The Heavens in Your hand surpass the grains of sand
Who am I before You? Elieonai eli adullamMy soul will wait
My soul wait silently for God, my God
God my refuge and I will live
I know some destiny still waits for me
