Where Are All the Scientists Now?

Jukebox the Ghost

It starts with a flash and a blast
Plaster and glasses and earthquake
Came floodin' through my living roomThe sky was black with thinkin'
As it began to sink, I thought of youAnd as the smoke came floodin' in beneath the doorway
I saw Satan shakin' hands, holdin' a briefcase
Where inside there's a plan that contains an X Command
Soldiers in the desert and toy soldiers marchin' in the sandIt's the end of the world, la da di da da da da daI'm innocent, I'm innocent
Keep me out of this
Keep me out of this, keep me out of this
Keep me out of thisIt's the end of the world, la da di da da da da daLaaa daa daa daa da daa da daa da daa
Laaa daa daa daa da daa da daa da daa
Laaa daa daa daa da daa da daa da daaIt's the end of the world, la da di da da da da da
It's the end of the world, la da di da da da da da
It's the end of the world, la da di da da da da da
It's the end of the world, la da di da da da da daLaaa daa daa daa da daa da daa da daa
Laaa daa daa daa da daa da daa da daa
Laaa daa daa daa da daa da daa da daaWe survived!
It lit up the inside of the moon
We survived!
To remind us that help would be arriving soon
We survived!
Hangin' tinsel in clear view
Record scaffolding and Christmas lights
Dedicated and renovated for youWe survived!
It lit up the inside of the moon
We survived!
Hangin' tinsel in clear view
We survived!
Record scaffolding and Christmas lights
Dedicated and renovated for youAnd taking a cue from the animals burrowing down
You dug a hole inside the architecture
A shelter just to be sure
