

# Say (Half Past Nine)

Hot Chelle Rae

Well I've got the ticket  
We're out of time  
Go ready or not it's a half past nine, half past nine  
And this city is red  
There's nothing left  
No looking back and no regrets, no regrets  
Take my hand  
This train won't wait for you  
Well I'd do anything if I could make you  
Come away with me and don't waste time  
Say, say that you're leaving with me  
Say, say that you're coming with me tonight  
Could be the night  
We'll be just fine  
Say, say that you're leaving with me  
Say, say, say that you're coming with me  
And let's change the pace, you pick the place  
Make up your mind it's a half past nine, half past nine  
And let's take a chance, we've come this far  
A motion picture romance  
The world is ours, world is ours  
Well take my hand  
This train won't wait for you  
Well I'd do anything if I could make you  
Come away with me and don't waste time  
Say, say that you're leaving with me  
Say, say that you're coming with me tonight  
Could be the night  
We'll be just fine  
Say, say that you're leaving with me  
Say, say, say that you're coming with me tonight  
You're coming with me tonight, coming with me tonight, coming with me tonight,  
It's now or its never, I won't wait forever  
I know this is right  
Let's let love live our lives tonight  
Come away with me and don't waste time  
Say, say that you're leaving with me  
Say, say that you're coming with me tonight  
Could be the night

We'll be just fine  
Say, say that you're leaving with me  
Say, say, say that you're coming with me  
Say, say, say that you're coming with me
