

# Longing For Fire

## Scorpions

Flying with the guys  
And my longing for fire  
Crying like last night  
The night which brings me higher In search of light  
Escape the night one day  
She's lost in time Just miss so high  
Time's passing by and I  
I'm on my way In search of light  
Escape the night one day  
She's lost in time Just miss so high  
Time's passing by and I  
I'm on my way
