

Wake Up In Hell

Sinergy

I can't go on
each second lasts forever
this must be the end
drown in waters black beneath me
I see nothing here but failure
I stand motionless in sorrow
though I still pretend carry on or lose my will?
What am I suppose to do? I've seen what hell is like
and you have put me here
this pain inside never ends for me
and when I wake I think
I cry myself to sleep
what am I living for? [SOLO : Latvala] Just when things are looking brighter
I get set back even further
shame, the feeling that surrounds me
back and forth, just try again
when I'm losing all control of
who I am and what I know
What am I suppose to do?
carry on or lose my will? and you hve put me here
I've seen what hell is like
this pain inside never ends for me
I cry myself to sleep
and when I wake I think what am I living for? [SOLO : Laiho]
What am I suppose to do?
carry on or lose my will? I've seen what hell is like
this pain inside never ends for me
and you have put me here
I cry myself to sleep
and when I wake I think
what am I living for?....
