

Venus in Arms

Deathstars

Your lips are like morphine
And your eyes are deceit
The make-up runs down into
The bullet wound in your cheek There's a secret I can share now (just don't tell)
And it's all about lust
There's a world I can show now (just don't cry)
A black planet of rust Will this hand destroy you? Venus in arms
I'll strip you off
In the flood of the light
Venus in arms
You'll taste the dark
Yet so innocent white Your tongue taste like strychnine
And your long hair is torn
The fancy wings are broken
And a black star is born There's a venom can you taste it (let out your tongue)
And it taste sweet (There's a diamond can you see it)
Open your eyes
Black sugar deep in the meat Will this hand destroy you? I'll strip you off
In the flood of the light
Venus in arms
You'll taste the dark
Yet so innocent white And I will suck you
Into the magic turbines of the night
I will lead your to me
And I will tear them down
All the white stars in your eyes
Then I'll bury them deep They are the victims of the vices
Which I try to project
They are the servants of the crisis
Which I try to project
