

Let It Start In Me

Gaither Vocal Band

Todd:

There's a dawn arising on a brand new day
There's a strong wind stirring 'cross the ancient graves
There's a voice that's calling 'will you be set free?'

There's a change a coming

Let it start in meChorus

Let it start in me

Let it start in me

There's a change a coming

Let it start in meAdam:

There's a fire that's burning sweeping 'cross this land

There's a heat consuming every evil plan

There is gold emerging from refining flame

There's a diamond sparkling

Where there once was shameWes:

There's a revolution cavaliering o'er the sea

We all know it's coming people must be free

Feel the tides feel the tides a changing

Hear the waves roll in

Let this revolution wash away our sinChorus

Let it start in me

Let it start in me

There's a change a coming

Let it start in meRepeat chorusDavid:

There's a storm a brewing

There's the sound of rain

When the thunder's rumbling 'cross the thirsty plain

Let the drought be over if we just believe that the rains are coming

Let it rain on meRepeat chorus 3 timesLet it start, let it start in me
