Tremor

Kingswood

Its' like I've seen your face before
Ten thousand years or maybe moreMy heart the lust that grows in the night
It unfolded after you took the first biteStanding on the corner
Holding hands and making orders
And we dance among the people
Drinking whisky with the Beatles
And our bodies start a tremor
And the night I will remember
And you keep me hanging
Keep me hanging in onStanding on the corner
Holding hands and making orders
And we dance among the people
Drinking whisky with the Beatles
And our bodies start a tremor
And the night I will remember
And you keep me hanging onStanding on the corner
Holding hands and making orders
And we dance among the people
Drinking whisky with the Beatles
And our bodies start a tremor
And the night I will remember
And you keep me hanging
