

# You Will Be Mine

## The Narrative

Green eyes steady  
as the room spins, baby  
from behind your desk and do you know you look so good  
with your pale skin  
picketing your bright blue dress but I talked and I learned  
that my tongue couldn't turn  
it's tricks on you so I tripped and perspired  
and fled from your island  
to plan my next move and all this time I'm waiting for  
a taste of what you hide but I'll know better when I'm  
in too deep, you will be mine you will be mine  
you will be mine  
you will be mine  
you will be mine sit tight, baby  
we'll be just fine  
slurring over drinks for two but it's only a chase if  
you've been holding out still  
even though the wine is tempting you and you talked and you learned  
that my heart wouldn't turn  
but it's too late now to lose it's the catch in your speech  
it's your clothes at your feet  
and the way you dance to how I groove sorry honey, I'll be late tonight  
don't wait up for me this time and don't ask what this ring is for  
I've yet to realize  
but I'll know better when I'm  
in too deep, you will be mine
