Pony

Wavves

So stupid and pretty self assure
I'm hanging around but it's not me that she's looking for
Hard to express depressed and bored
Hard to express depressed and boredAnd the days go on
It'll take some time
To figure out
It gets better
It better
It gets better
It betterLeave me alone all by myself
But this much is true
I'll always be lost without youOpen wide and insert cure
I fall asleep dreaming of something fall as pure
It sits on my chest and stops my breathing
I fall asleep staring at the ceilingAnd the days go on
It'll take some time
To figure out
It gets better
It better
It gets better
It betterLeave me alone all by myself
But this much is true
I'll always be lost without youLeave me alone all by myself
But this much is true
I'll always be lost without youIt gets better
It gets better
It gets better
It gets better
It better
It gets better
It better
