Burn In Hell

Ancara

Speak to me
Of those days I won't forget
Your worst dreams
Has just returned to pay you back
I'm still laughing
There's not much else I can do
But one thing's certain
I'm coming back for you
Have you got a gun?
Do you remember well
Who you used it on?
It's time to burn in hell
Say my name
I can hear you whisper
Not to blame
You are going to blister
Scream in the night
I've been counting the days
And it's so amusing
To see you again
Have you got a gun?
Do you remember well
Who d'ya use it on?
You're going to burn in hell
Die, why? Time to pay the price
Kill, I will have my sacrifice
Plead with fear, I am getting near
Friend, liar, time to eat some fire

Have you got a gun?
Do you remember well
Who d'ya use it on?
You're going to burn in hell
Burn in hell
I can hear you whisper
Burn in hell
You are going to blister
Have you got a gun?
Do you remember well

Who d'ya use it on?
You're going to burn in hell
Burn in hell
I can hear you whisper
Burn in hell
You are going to blister
Snarl like a dog
You'll scream like a banshee
Stuck like a hog
You're gonna love me
Burn in hell
I can hear you whisper
Burn in hell
You are going to blister
Burn in hell
Screaming like a banshee
Burn in hell, burn
