

Two Trick Pony

Shocore

I want to move on

Not realizing I was moving too slow

Tried to hang on

But there was nothing left for me to hold Its such a shame that you cant be with me tonight

Im spinnin round in cycles

Hope you change your mind

Before the show is over

I look around, its you I thought I find Ive Been on standby

Not realizing I was moving too slow Instant replay

But there was nothing I can do about it Still in denial

I cant believe that you can do this to me

No lights ahead

Ive been looking forward but I could not see I have been waiting for you all night

Under the glow of the satellite
