Move With You

Jacob Banks

You could call me Jay
Cause you're my BeyoncÃ©
Consider me danger
Tell me, what do you say?
Don't take me seriously
I'm just playing games
Don't be afraid about me
I just like what I see

Ain't no other girl
Does it like you do
I'm so captivated
By the way you move

I wanna move with you
Can you move with me?
I wanna groove with you
Can you groove with me?
I wanna boogie with you
Can you boogie with me?
The way you move your hips
You've got a brother mesmerised

Oh, the night is young
But life's too short
Come lay with me
I can make you feel good
A little tongue in cheek
To keep you on your knees
Let's get this show on the road
Oh, sing, would you please?

Ain't no other girl
Does it like you do
I'm so captivated
By the way you move

I wanna move with you
Can you move with me?
I wanna groove with you

Will you groove with me?
I wanna boogie with you
Can you boogie with me?
Ain't no other man
Who love you like I do

I wanna move with you
Can you boogie with me?
I wanna move with you
Will you boogie with me?
I wanna move with you
Can you boogie with me?
I wanna move with you
Will you groove with me?

Ain't no other girl
Does it like you do
I'm so captivated
By the way you move

I wanna move with you
Can you move with me?
I wanna groove with you
Will you groove with me?
I wanna boogie with you
Will you boogie with me?
I wanna move with you
Will you groove with me?

I wanna groove with you
Will you groove with me?
I wanna boogie with you
Will you boogie with me?
I wanna move with you
Will you move with me?
The way you move your hips
You've got a brother mesmerised
