

Listen to Your Man

Chico DeBarge

Lady, you've been on some bullshit
Listenin' to ya jealous friends
Don't ya think I woulda left a long time ago
It's been six months I recall to make the ends meet
And what's bad ta got the nerve ta disrespect me
Ya girlfriends wish they had
One half of what you have You don't understand the make-up of a man
If I treat cha like a dog then you wanna stay
If I treat cha like a woman then you wanna walk away
I don't understand
Listen to ya man I'm ya man baby your my girl
Lady, tell me, what does that mean to you?
In the middle of a fuss tell me who ya gonna trust
Ya cousin's babys mama's best friend
Listen to ya man You say I am only just a loser, I'm gonna use ya
They got cha mind twisted ya messed up, broke our contract
What's up wit that don't know what to do It's unusual how they run your life
And behind ya back be tellin' lies You don't understand the make-up of a man
If I treat cha like a dog then you wanna stay
If I treat cha like a woman then you'll walk away
I don't understand
Listen to ya man I'm ya man baby your my girl
Lady, tell me, what does that mean to you?
In the middle of a fuss tell me who ya gonna trust
Ya cousin's babys mama's best friend
Listen to ya man I'm ya man baby your my girl
Lady, tell me, what does that mean to you?
(Listen to ya man)
In the middle of a fuss tell me who ya gonna trust
Ya cousin's babys mama's best friend
(Listen to ya man) Think
(Think about it baby)
Think
(Think, think, think about it babe)
Think
(Think, think, think about it babe) Think
(Think about it)
Think
(One mo' time)

Think
(Two mo' times)
Uh had enough babe Think
(Of yo stuff)
Think
(Jealousy)
Think
(And envy will only bring you down) Think
(Jealousy)
Think
(And envy)
Think
(Look at your friends)
Think
(They'll know me) Listen up baby
(I'm ya man babe)
Listen up baby
Understand
(Understand babe)
Understand your man Think
(Think about it)
Think
I work too hard
Think
(I pay the bills, I work too hard) Think
(I pay the bills)
Think
(Come on baby)
Think
(Come on baby) Think, think, think
(Think about it)
Think
(Think about it)
Think
(Think about it)
Think
(I think about it baby) I'm ya man baby, your my girl
(Say think about me, say think about me)
Lady, tell me, what does that mean to you?
(Gave your love a chance, baby)
In the middle of a fuss tell me who ya gonna trust
Ya cousin's babys mama's best friend
Listen to ya man I'm ya man baby your my girl
Lady, tell me, what does that mean to you?
In the middle of a fuss tell me who ya gonna trust

Ya cousin's babys mama's best friend
Listen to ya man Your man ain't your man unless he wants to be there
(Think about, think about your choice of friends)
Cause you give up running and booze that don't mean jack
If you knew what you got you would trust your respect
If you cannot trust in me maybe you should leave it I'm ya man baby your my girl
Lady, tell me, what does that mean to you?
In the middle of a fuss tell me who ya gonna trust
Ya cousin's babys mama's best friend
Listen to ya man I'm ya man baby your my girl
Lady, tell me, what does that mean to you?
In the middle of a fuss tell me who ya gonna trust
Ya cousin's babys mama's best friend
Listen to ya man I'm ya man baby your my girl
Lady, tell me what does that mean to you?
In the middle of a fuss tell me who ya gonna trust
Ya cousin's babys mama's best friend
Listen to ya man Try an understand
