

I Have Friends in Holy Spaces

Panic! at the Disco

You remind me of a former love that I once knew
And you carry little peace with you
We were holding hands walking through the middle of the street
Its fine with me Im just taking in the scenery You remind me of a few of my famous friends
Well, that all depends what you qualify as friends
You remind me of a few of my famous friends
Well, that all depends what you qualify as friends Take a chance, take your shoes off, dance in the rain
I was splashing around and the news spread all over town
Im not complaining that its raining I'm just saying that I like it a lot
More than you think, if the sun would come out and sing with me You remind me of a few of my famous friends
Well, that all depends what you qualify as friends
You remind me of a few of my famous friends
Well, that all depends what you qualify as friends
