What You Want

Samantha Jade

[Verse 1]
Hush up, sit back and listen, I wanna cater to you
I wanna take this time baby to show you how much I love you
I see you've been working hard, you got so much on your mind
Put down your bags baby and just come inside[Pre-Chorus]
Do nothing I got it under control, just enjoy the show yeah[Chorus]
I just wanna give you what you want
Sorry but you're not the only one
Cause your body's calling me and you know it
All I ask for is you with lights down low
I just wanna give you what you want[Verse 2]
Tonight I'm on a mission, I won't let nobody intrude
Gonna take my time baby, to do things you never knew I could do
Love me right baby, whisper on your skin
Touch me like I won't ever feel again[Pre-Chorus]
Do nothing I got it under control, just enjoy the show yeah[Chorus]
I just wanna give you what you want
Sorry but you're not the only one
Cause your body's calling me and you know it
All I ask for is you with lights down low
I just wanna give you what you want[Bridge][Chorus]
I just wanna give you what you want
Sorry but you're not the only one
Cause your body's calling me and you know it
All I ask for is you with lights down low
I just wanna give you what you want
