Feeling Sad Tonight

Carole King

Feeling sad tonight but everything's all right
And we'll find some other place to go
Feeling sad tonight, oh, but everything's all right
Let's turn all our cares down lowCome on, let's go downtown
Let's take a trip back to the past
Running down the bright night
Driving a little too fastOh, I'm counting on you
Sitting on a barstool I'm a foolAlways feeling half right and half safe
Halfway dreaming of some safe place
Away from school, oh, I'm counting on you
Silly sometimes I'm a foolFeeling sad tonight but everything's all right
And we'll find some other place to go
Feeling sad tonight, oh, but everything's all right
Let's turn all the lights and all our cares way down lowThere is a space between us
Which we cross
To touch each other softly
And so make up our lossSome things take so long to learn
No matter how we try
Still we try and keep it open
And we get byEverything's all right
And we'll find some other place to go
Feeling sad tonight, oh, but everything's all rightFeeling sad
Feeling so sad tonight
I'm feeling sad tonight
Feeling sad
Feeling so sad
