

# Where Are The Heroes?

## The Red Jumpsuit Apparatus

Where are the heroes!

It's dark out  
The water falls to the ground  
I shift gears  
No one cares if I make it out  
Brake light glare my blank stare tells what I'm about  
Quitting is easy when no one's around

[Chorus]

Late it's too late to get it right  
Whenever I try  
Red lights pass  
My life flashes before my eyes  
Late it's too late to get it right  
When all I find are villains and zeros  
Where are the heroes

I know you've been here before in your life  
I came through  
And now you're nowhere left in sight  
Leaving is easy when no one's around

[Chorus]

Where are the heroes

Where are the  
Where are the  
Where are the heroes  
Where are the  
Where are the  
Where are the heroes

Where are the heroes  
Where are the heroes  
Where are the heroes

[Chorus]

Where are the heroes

Where are the heroes

Villains and zeros

Where are the heroes
