Words Stuck To Heart

Outlandish

Time after time we dream, dreaming of how it all could be
But none can say what lies ahead
When after the dawn the sun will set
Only the truth remains in here
Mmm, promises we make in vain
And words we give for a while to break
A flower fades away like everything else
Oh, everything fades away
Words are stuck to the heart, my friend
Words are stuck to the heart, my friend
They bring us together ?til we part again
They bring us together ?til we part again
When there?s nothing left to share
And all the words will disappear
Only the truth remains in here
Words are stuck to the heart, my friend
My friend, my friend
Cuando solo el silencio canta
My friend, my friend, my friend
Y solo tus sue
