

Scream At the Night

The Reverend Peyton's Big Damn Band

And we are running to money
But that tailored suit and a pile of loot
Gives you a heart attack
And a long commute And what has become of freedom?
Well I've seen some
And it's backpacks and train tracks
Not lawn care or contracts Hey, we don't need another love song
'Nother peace and white dove song
We need to write a fight song
A good people do what's right song We need a scream at the night song
A scream at the night song
A scream at the night song
A scream at the night song And I turn on the TV to see
What's goin' on but somethin's wrong
Nothin' but lies I can't get along And I'm getting to see the music
The pop charts are pop tarts
With empty songs with no heart Hey, we don't need another love song
'Nother peace and white dove song
We need to write a fight song
A good people do what's right song We need a scream at the night song
A scream at the night song
A scream at the night song
A scream at the night song We don't need another love song
'Nother peace and white dove song
We need to write a fight song
A good people do what's right song We need a scream at the night song
A scream at the night song
A scream at the night song
A scream at the night song I wanna scream, I wanna scream at the night song
I wanna scream, I wanna scream at the night song
A scream at the night song
A scream at the night song
