

My Lucky Charm (Plaisir de France Remix)

The Postmarks

All the square shaped pegs are for the birds
(All the square shaped pegs are for the birds)

My skin's rubber to their gluey words
(My skin's rubber to their gluey words)

Ever since that first day you arrived
(Ever since that first day you arrived)

I've been set on autopilot smile
(I've been set on autopilot smile)

Did you know you're my lucky charm
You always keep me safe from harm
Dangerous explosions are disarmed
whenever you are on my arm

I'm no pigeon looking for a home
(I'm no pigeon looking for a home)

Keep your species and I'll keep my soul
(Keep your species and I'll keep my soul)

But with you I'm happy to be stuck
(But with you I'm happy to be stuck)

Come along my charm, let's try our luck
(Come along my charm, let's try our luck)

Did you know you're my lucky charm
You always keep me safe from harm
Dangerous explosions are disarmed
whenever you are on my arm

Did you know you're my lucky charm
You always keep me safe from harm
Dangerous explosions are disarmed
whenever you're on my arm
whenever you're on my arm
whenever you're on my arm
whenever you're on my arm
whenever you're on my arm
