

Wildside

Loverboy

I'll try to tell you
'Cause I know you'll understand
The pleasure you measure
Comes from my first commandEverybody gotta listen to me
'Cause it's time that we hit the streets
It's like no other place girl
You'll have me whole world at your feelOut on the wild side
Yeah, livin' all your fantasies
On me wild side
You can come, but you can't leaveWith one shot you feel hot
No one can slow you down
Our days are bound to change
And tonight we're gonna have it allYou are wild and you are willing
But are you ready to sacrifice?
Now you're headin' in the right direction
But you're gonna have to pay the priceOn the wild side
Livin' all your fantasies
On the wild side
Yeah, you can come but you can't leaveYou're wild and you are willing
But are you ready to sacrifice
Now you're headin' in the right direction
But you're gonna have to pay the priceOut on the wild side
Yeah, livin' all your fantasies
On the wild side
You can come but you can't leaveOn the wild side
Yeah, livin' all your fantasies
On the wild side
Oh, you can come but you can't leaveOn the wild side, wild side
Wild side, wild side
Wild side, wild side
Wild side, wild side
