

# Come on Out

## The Elwins

Take your cold hands and put them on my face  
Sharpen your axe and your criminal ways  
Let's go to town  
and do what we did before  
It's gonna hurt  
but we don't feel pain no more  
If you're alive can you say that you've tried  
to be someone who's true?  
Stuck in your shell  
Looking for help  
Come on out and things will soon change  
You gotta keep your head up  
Start your day by doing something good  
Treat a friend the way you know you should  
Like a cat in its cage  
I feel we're pacing around and never getting our way  
But if you know you're a mitt  
inside a sleeve, that's a fit  
and that's as good as it gets  
If you're alive can you say that you've tried  
to be someone who's true?  
Stuck in your shell  
Looking for help  
Come on out and things will soon change  
You gotta keep your head up  
You gotta keep your head up  
You gotta keep your head up  
Moving quickly  
Sure feels so empty  
I've thought about it and all the while  
I'm still doing the same old thing  
I can't say that I'll change or I'll find a new way  
Til I know who I am, that's right  
Inside my head  
I know I've seen a dream  
If you're alive can you say that you've tried  
to be someone who's true?  
Stuck in your shell  
Looking for help  
Come on out and things will soon change  
You gotta keep your head up  
You gotta keep it up  
I know that we'll find our way
