Here comes the queen, I'll make a woman on the track get attracted like a fiend to the beat so I rap

You're looking for a friend to the end, good, that me

but if you're looking for a Gangsta bitch, That's exactly what you're gonna see

Ain't no way, Ain't no say, This ain't your lucky day

So go pray, Now you pay cause I don't FUCKIN play

Matter fact, I think Ice-T, he put it just right

"You diss me on record, see me fight"  
Just throw up the joints and get to the point  
and cut all the talk, the BS can walk  
You test my skills, you get put to death  
I'm sick of all the huff puff blow your house down BULL-  
SHIT I heard last week  
You get ya ass beat  
So Watch the way you approach the Queen  
if it ain't rough I'll send that ass to the guillotines
